

Product catalogue

You can use this catalogue to search for three types of information:

1. General product: IUPAC name, formula and molecular weight, Chemical Abstracts Service Registry Number (CASRN), tariff heading under which it is imported or exported (TARIC), European Inventory of Existing Chemical Substances (EINECS) number and Quality Chemicals reference number.
2. The grades supplied by our company, which are reflected under "Grade" by the company's initialisms and through international reference standards.
3. About the products' hazards and precautions by reading the hazard and precautionary (H&P) phrases.

The catalogue information is organised by product description in alphabetical order. Salts are ordered by cations. The information is arranged as follows:

PRODUCT DESCRIPTION	FORMULA	MOLECULAR WEIGHT	CHEMICAL ABSTRACTS REGISTER NUMBER	EINECS CODE	RETEST DATE	PRODUCT CODE	FOOD ADDITIVE NUMBER
POTASSIUM NITRATE						Product code:1458	
KNO ₃ M.W.: 101.11			CAS Nr: 7757-79-1 EINECS Nr: 231-818-8			Retest period: 60 Food additive Nr: E-252	
						UN Nr: 1486 ADR/RID Class: 5.1 IMDG Code: 5.1/III IATA Code: 5.1	
H Phrases: 272 P Phrases: 210-221							
Standard grade: AL According to monographs: FCC IX,EU 231/2012						Article: 145812
